

ONTOBRAS

Brazilian Ontology Research Seminar

September 8

9:00am	10:30am	Questões Ontológicas na Filosofia da Ciência Atual Prof. Osvaldo Pessoa Jr.
11:00am	12:30pm	Knowledge Representation and Databases Prof. Enrico Franconi
12:30pm	2:00pm	Lunch
2:00pm	3:30pm	Geographical Ontologies: an Overview Prof. Gilberto Câmara
4:00pm	5:30pm	Tesouro: um Tipo de Ontologia Profs. Vânia Mara Alves Lima, Cibele Araújo Camargo Marques dos Santos, Marilda Lopes Ginez de Lara, Gabriela Previdello Orth

September 9

9:00am	10:00am	Welcome Session Histórico Ontobras
10:00am	10:30am	Short Papers (lightning talks)
10:30am	11:00am	Coffee-break – Poster Presentations (Ontology Engineering & Semantic Web) * Extended ontologies: a cognitively inspired approach – Joel Carbonera and Mara Abel. * Abordagens para Estimar Relevância de Relações Não-Taxonômicas Extraídas de Corpus de Domínio - Lucelene Lopes, Maria Jose Bocorny Finatto, Alena Ciulla and Renata Vieira. * An ontology of organizational knowledge - Anderson Beraldo De Araújo, Mateus Zitelli and Vitor Gabriel De Araújo. * Annotation-Based Method for Linking Local and Global Knowledge Graphs - Patrícia Cavoto and André Santanchè.
11:00am	12:30pm	Session I 1) Using Ontology and Data Provenance to Improve Software Processes - Humberto L. O. Dalpra, Gabriella C. B. Costa, Tássio F. M. Sirqueira, Regina Braga, Fernanda Campos, Cláudia M. L. Werner and José Maria N. David. 2) An Empirical Study to validate the Use of Ontological Guidelines in the Creation of i* Models - Ramilton Costa Gomes Júnior and Renata Silva Souza Guizzardi. 3) Exploring Ontologies for Semantic Documentation in Project Management - Erick Bastos, Monalessa Barcellos and Ricardo Falbo
12:30pm	2:00pm	Lunch
2:00pm	3:30pm	Keynote Talk – Grigoris Antoniou
3:30pm	4:00pm	Coffee-break – Poster Presentations (Ontology Engineering & Semantic Web) (the same posters that were presented from 10:30am to 11:00am)
4:00pm	5:30pm	Session II 1) Task ontology for collaborative multi-agent systems- Daniela Schmidt, Rafael Bordini, Felipe Meneguzzi and Renata Vieira. 2) An Ontology for TNM Clinical Stage Inference - Felipe Massicano, Ariane Sasso, Henrique Tomaz, Michel Oleynik, Calebe Nobrega and Diogo Patrão. 3) OCIP – An OntoClean Evaluation System Based on a Constraint Prolog Extension Language - Cleyton Rodrigues, Fred Freitas and Ryan Ribeiro De Azevedo

ONTOBRAS

Brazilian Ontology Research Seminar

September 10

9:00am	10:30am	Keynote Talk – Gilberto Câmara
10:30am	11:00am	Coffee-break – Poster Presentations (Applied Ontologies & Ontology Application) * Unificando a Comparação e Busca de Fenótipos em Model Organisms Databases - Luana Loubet Borges and André Santanchè. * BLO: Batata Lake (Oriximiná/PA) Application Ontology - Adriano N. de Souza and Adriana P. de Medeiros. * An Application Ontology to Support the Access to Data of Medical Doctors and Health Facilities in Brazilian Municipalities - Aline Souza, Carlos Bazilio and Adriana Pereira De Medeiros. * A model for the construction of an inter-domain ontology: Corporate Sustainability Index and the G4 Guidelines of the Global Reporting Initiative - Tâmara Reis and Paulo Silva. * Ontologies in support of data-mining based on associated rules: a case study in a medical diagnosis company - Lucelia Pinto Branquinho, Maurício Barcellos Almeida and Renata Maria Abrantes Baracho.
11:00am	12:00pm	Short Papers (lightning talks)
12:00pm	12:30pm	Anotações Semânticas na Web: Usuário Final Gerando Metadados Speaker: Newton Calegari, Centro de Estudos sobre Tecnologias Web – ceweb.br
12:30pm	2:00pm	Lunch
2:00pm	3:30pm	Session III 1) A Systematic Mapping of the Literature on Legal Core Ontologies - Cristine Griffo, Joao Paulo Almeida and Giancarlo Guizzardi. 2) Supporting FrameNet Project with Semantic Web technologies - Paulo Hauck, Regina Maria Maciel Braga Villela, Fernanda Campos, Tiago Torrent, Ely Matos and José David. 3) Conceiving a Multiscale Dataspace for Data Analysis - Matheus Silva Mota and André Santanchè.
3:30pm	4:00pm	Coffee-break – Poster Presentations (Applied Ontologies & Ontology Application) (the same posters that were presented from 10:30am to 11:00am)
4:00pm	5:30pm	Panel

September 11

9:00am	10:30am	Keynote Talk – Enrico Franconi
11:00am	12:30pm	Session IV 1) EDXL-RESCUER ontology: an update based on Faceted Taxonomy approach - Rebeca Barros, Pedro Kislansky, Lais Salvador, Reinaldo Almeida, Matthias Breyer, Laia Gasparin Pedraza and Vaninha Vieira. 2) Measurement Ontology Pattern Language Applied to Networking Performance Measurement Domain - Raphaela Nunes, Adriana Vivacqua, Maria Luiza Campos and Ana Carolina Almeida. 3) The Multiple Applications of a Mature Domain Ontology - Mara Abel, Joel Luis Carbonera, Sandro Rama Fiorini, Luan Garcia and Luiz Fernando De Ros.
