Gauss M. Cordeiro

Dear Dr Cordeiro,

It is time that I acknowledged your letter of invitation of October 31, to attend the 7th Brazilian Congress of Probability & Statistics in July, 1986. I greatly appreciate your invitation, which I have considered with some interest; but, bearing in mind other commitments, I have regretfully decided that I must decline.

I wish you, however, a very successful conference, and thank you once again for thinking of me in connection with it.

Yours sincerely,

Maurie Dattlett

[Emeritus Professor of
Biostatistics,
University of Oxford]
