

Sample Surveys and Bayesian Statistics

26th-29th August 2008

Southampton, UK

Bayesian methods have become increasingly popular across a broad range of statistical applications. The aim of this meeting is to highlight the potential advantages of Bayesian methodology and discuss and illustrate its possible applications in diverse areas of [sample survey design and inference](#).

The meeting will begin with a 1.5 days short course, followed by a 2.5 days conference, consisting of invited and contributed research and applied papers and a special panel discussion. The following are confirmed invited speakers

- Nicky Best
- David Binder
- Gauri Datta
- Steve Fienberg
- Malay Ghosh
- Partha Lahiri
- Rod Little
- T. Raghunathan
- Jon Rao
- Jerry Reiter
- Yosi Rinott
- Joe Sedransk
- Simon Shaw
- Fred Smith
- Roger Sugden
- Shelley Zacks

Further details are available on the conference website.
Early registration is recommended as places are limited.
